STECKLER SEED COMPANY, Inc.
512 Gravier St. NEW ORLEANS, LA.

STECKLER'S Seed House Is At Your Door

The efficiency of the United States Mail and the ease of ordering from the book has practically placed our seed store at your front door. Whether you wish information or seeds, you are as close to us as your mail box.

And remember, the seed store is always the place to buy seeds, plants, and bulbs. To produce, store and distribute such items has been a lifetime study with us. All of our thought and facilities are devoted to giving you first quality and prompt, efficient service. This is our business and not a sideline, so we must give better service.

After years of experience, we not only know best where and how to produce each kind of seed, but we know how to store, clean, and test seeds so as to give you stock of good breeding, high vitality, and greater producing qualities. Knowledge is the basis of the seed business and this unseen element often controls the yield of your crops.

Therefore, since you have an old, experienced, reliable seed store, so close, so easy to reach—practically right at your front door—why not avail yourself of the superior service of such an organization.

Is a splendid soil builder, and will thrive on clay or loamy soils. Sow 6 to 8 pounds per acre from September to November, and cover lightly. Reseeds itself even when closely grazed. Makes an upright growth 2 to 3 feet high. Will stand wetter lands than most clovers. Seed should be inoculated with NITRAGIN. See page —. **Price: Lb. 55c; 5 lbs. $2.50 postpaid. Not prepaid, 10 lbs. $4.20; 100 lbs. $40.00.**

STECKLER'S WINTER LAWN GRASS SEED

Lawn of Winter Grass

ITALIAN

RYE GRASS

AMERICAN GROWN

The winter grass for all the South. Superior to foreign grown Italian and English Rye Grass seed. Our fancy seed is heavier and more plump, full of vitality, quick to start and strong in growth. It is a fast-growing annual grass with long flat leaves, growing in tufts if left uncut. It is valuable to dairymen for winter and spring grazing, but its great use is for winter and spring lawns.

Scratch seed in Bermuda sod for green lawn until the Bermuda comes out again in summer. By itself it makes a delightful green lawn, in sun or shade, all fall, winter and spring. It stands repeated mowing on lawn or golf green. Sow 10 lbs. per 1,000 sq. ft. (50x20 ft.) for lawn; 50 lbs. per acre for pasture. **Prices: Fancy Seed, lb. 25c; 5 lbs. 75c, postpaid. AUSTRIAN WINTER PEAS

DOUBLES YOUR

CORN and COTTON YIELDS

Rapidly climbing to the top as the leading soil-builder and winter crop throughout the entire South, because of its large, heavy growth on practically all soils and its ability to resist winter freezes. Matures two weeks ahead of Vetch and makes a splendid temporary pasture in late winter. Cotton and corn yields will double former yields following the first good crop of Peas. It grows about 5 feet high, can be planted by itself, but also does fine with a light seeding of oats, rye or barley to hold the vines off the ground; makes a heavy tonnage of splendid hay. It will protect your soil, hold and increase its fertility, furnish grazing for your livestock, or makes wonderful green manure, decaying rapidly when plowed under.

Sow Austrian Winter Peas during September and October, in drills, at the rate of 30 pounds per acre and cover 2 inches. May also be sown broadcast and disked in. Sowing the seed broadcast in cotton middles and straddling the rows with a two-horse cultivator with the disk hillers or plows is a very good method of covering. Turn under when the green tops cut from a square 10 by 10 feet will weigh 15 pounds (green weight). **Lb. 25c; 5 lbs. 75c, postpaid. Not prepaid: 10 lbs. 75c; 25 lbs. $1.30; 50 lbs. $2.40; 100 lbs. $4.50; 1,000 lbs. $42.50.**

HAIRY VETCH

An Outstanding and Reliable Soil Builder

Poor soil can soon be made rich with it. Planted combined with small grain, such as Oats and Rye or seeded alone makes splendid winter and spring pasturage. Stands severe winters without injury, grows on practically all types of soil. Vetch is usually turned under in early April. A good crop is equivalent to 250 pounds or more of Nitrate of Soda and valuable humus is put into the soil. Planted September to December, sow 20 to 25 pounds per acre alone, 15 pounds with small grain. Inoculate with NITRAGIN C. **Prices: Lb. 30c; 5 lbs. 90c, postpaid. Not prepaid: 10 lbs. $1.25; 25 lbs. $2.50; 50 lbs. $4.75; 100 lbs. $9.00. Write for prices on larger quantities.**

CLIMBING AMERICAN BEAUTY (H. W.)—Same color, size and fragrance as American Beauty, with the addition of the climbing habit. Good foliage and better blooming qualities.

DR. W. VAN FLEET (H. W.)—Flowers when open run four inches and over in diameter. The center is built high, petals beautifully undulated and cupped. The color is a remarkable delicate shade of flesh-pink on the outer surface, deepening to rosy-flesh in the center.

MARECHAL NIEL (N.)—This is the old standby yellow Rose in the South, where it is hardy; indeed it will bloom in any garden. Immense deep golden-yellow flowers with the deepest, richest tea fragrance of all Roses.

PAUL'S SCARLET CLIMBER (H. W.)—Vivid scarlet, shaded crimson, makes a brilliant display for a long period of time in the garden. A wonderful climbing Rose.

CLIMBING RED RADIANCE (Cl. H. T.)—Exactly like the bush variety of the same name except that it is of climbing habit.

CLIMBING WHITE AMERICAN BEAUTY (H. W.)—A hardy disease-resistant variety; vigorous growth and great freedom of bloom.

TRI-COLORED ROSES (Bush)

PRESIDENT HOOVER (H. T.)—The Rose of wonderful colors. It is remarkable for its vigorous growth and beautiful colorings. A blend of orange and pink, varying in tone from coppery-red in the bud, to glowing orange-yellow at the base of the petals, suffused with vivid rose pink.

TALISMAN—It is a combination of shadings of gold, apricot, yellow, deep pink and old rose. The bud is long, well formed and develops into full double flowers. The plant is a strong grower, with glossy green foliage and free flowering.
